

# BUG REPORT

## BUG 1:

**Exit option doesn't lead to termination of the program, you have to stop the program by ending the process.**

### Details

- The main menu choice "exit" doesn't end the program.
- It just asks for a new choice again

## BUG 2:

**Bank deposits don't reflect when the program is closed and started again**

### Details

- When I make a deposit in the bank and logout, the new balance doesn't reflect when I run the system again
- Eg, If I have a current balance of 10 rupees
  - I deposit 30 rupees
  - In the same time, when I check my balance, it shows that my balance is 40 rupees
  - However, once I log out, exit, and restart the program again, it shows the balance as 10 rupees again

## BUG 3:

**Withdraw feature allows for withdrawal of amounts greater than current balance, allowing a negative balance**

### Details

- If X has a balance of 30 rs, and he withdraws 50 rupees
- X gets 50 rupees and their new balance is shown as -20 rupees.
- This should not happen
- X should not be allowed withdrawals greater than the current balance
